SAFETY PLAN AND ADVICE

Find here information about safety plan and health advice

Safety plan

To ensure your safety, the Museum de La Seine-et-Marne applies the Vigipirate plan, set up by the French authorities following the attacks of 2015. This plan is in force in all the Seine-et-Marne Department museums, as well as in all places open to the public in France :

- Controls are being stepped up at the entrance to the museum.
- We would be grateful if you would submit to it in the interest of all.
- Any bag or luggage exceeding 45x36x20 cm must be opened and dropped off at the coat check .

Together, let's remain vigilant!

Health advice

We recommend that you continue to use the hand sanitizer dispenser in the museum and personal protections for headphones.
